

# The 2nd Green Design and Green Manufacturing (Berlin) International Forum (Draft updated)

**Date&Place: 15th November 2024, Berlin**

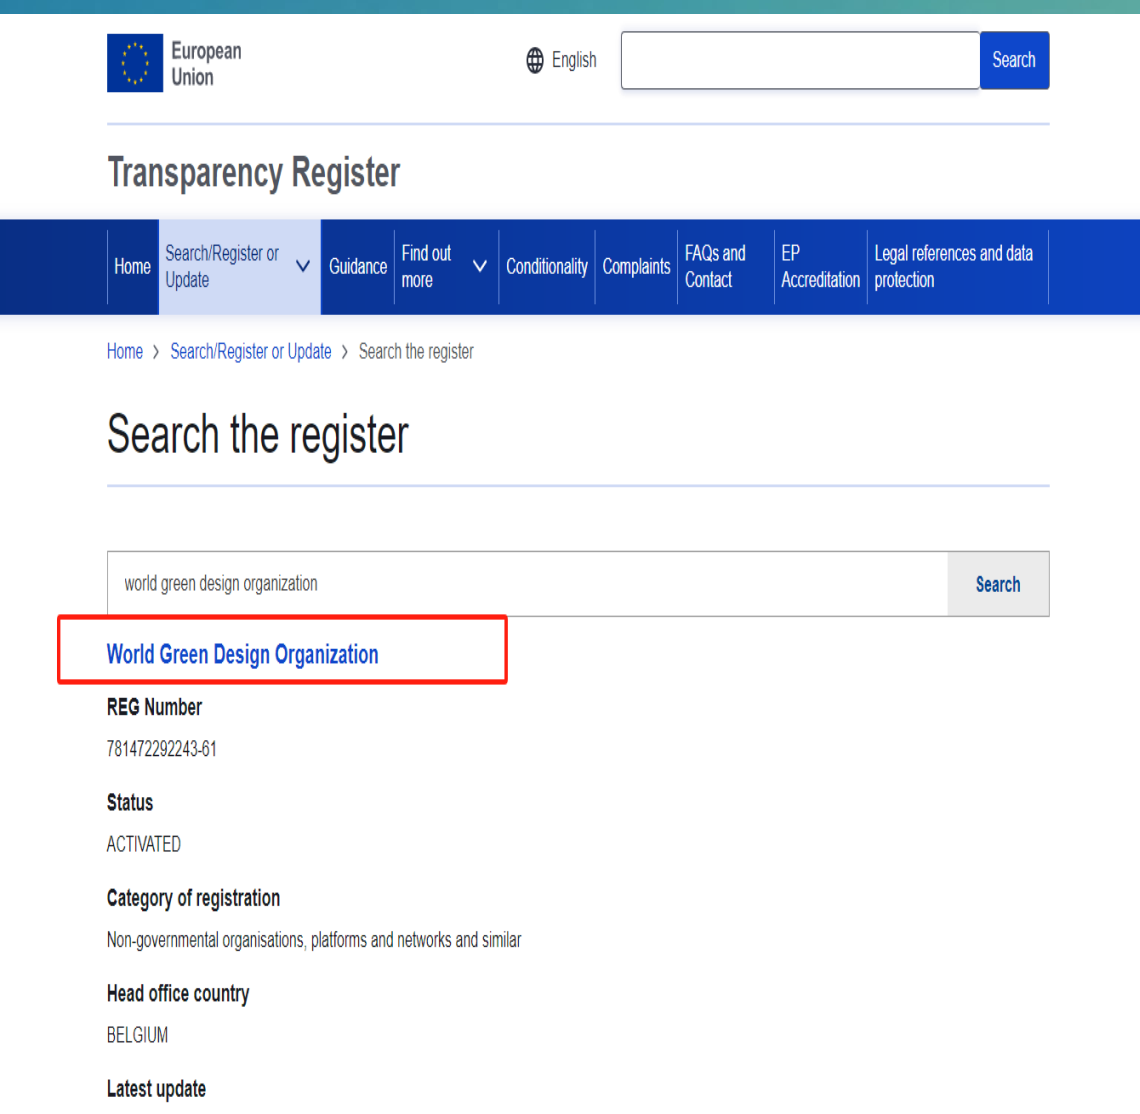

World  
Green Design  
Organization

Officially Accredited NGO under EU (781472292243-61)  
Special Consultative Status from UN ECOSOC

# About WGDO

Established in 2013, Brussels, Belgium, WGDO is an officially accredited transparency registered NGO in EU which entitles WGDO could provide professional proposals in policy-making and implementation works of the EU. The “ **Special Consultative Status** ” granted from the UN ECOSOC, indicates the unique value of Green Design to promote SDGs and also facilitate WGDO to participate in meetings and activities of the United Nations as the Observer, offers suggestions in the field of green sustainable development, making contributions with the wisdom and solutions of green design.

The screenshot shows the European Union Transparency Register website. The search bar contains 'world green design organization' and the search results list 'World Green Design Organization' with the following details:

- REG Number:** 781472292243-61
- Status:** ACTIVATED
- Category of registration:** Non-governmental organisations, platforms and networks and similar
- Head office country:** BELGIUM
- Latest update:**

The letter is dated 28 June 2024 and is addressed to an NGO Representative. The subject is 'Follow-up to the decision of the Economic and Social Council'. The letter states that the Economic and Social Council (ECOSOC) has adopted the recommendation of the Committee on Non-Governmental Organizations (NGOs) to grant special consultative status to the organization, **World Green Design Organization**. The letter also mentions that consultative status enables the organization to engage in various ways with ECOSOC and its subsidiary bodies, and provides a link to a booklet titled 'Working with ECOSOC: an NGO Guide to consultative status'. The letter concludes with a request for the organization to carefully review the information provided below.

**A. Privileges and benefits of consultative status**

# Background

**Green Design**, also known as eco-design and sustainable design, is a key prelude path to build a green manufacturing system, and refers to the design guidelines and methods that comprehensively consider the conservation of energy and resources, the reduction of emissions and the impact of waste on the environment during the operation of product manufacturing in the product design stage.

Enterprises use Green Design methods and tools to develop and promote high-quality, low-carbon and environmental-friendly products, thus leading green consumption, creating new demand, cultivating new models to create a new engine of green growth, provide a solid guarantee for the green and low-carbon transformation of economic and social fields.

The 2nd Green Design and Green Manufacturing Forum (hereafter called the 2nd Berlin Forum ) would provide governments, organizations, enterprises, universities and institutes a platform to show and find the best green practice.

# Background

Germany has always been in the forefront of the world in the green transition of the manufacturing industry, and its foresight and ambition in formulating and promoting sustainable development policies are worthwhile being referred for other countries.

This forum is planned to be held in Berlin, and we hope to invite green technology enterprises, industrial design leaders and authoritative experts on sustainable development from various countries to gather in Germany to discuss how green design promote green manufacturing and learn from the green transition path and experience of Germany, further strengthen global cooperation in combating climate change.

# Forum Structure

**INFRA**Dianba

**D5**   
全球数字经济联盟  
Global Digital Economy Alliance

**Co-Host:**  中国（德国）研发创新联盟  
CHINESISCHE F&E INNOVATIONSION  
IN DEUTSCHLAND e.V.

Bundesverband  
für Wirtschaftsförderung  
und Außenwirtschaft **BWA**  
Global Economic Network 

**Undertakers:**  **NIO**

  
**绿研院**  
Green Design Institute

  
Europa International Exhibition Group

**Public Welfare Partner:**

**DDF**  
北京光华设计发展基金会  
DRAGON DESIGN FOUNDATION

# Forum Content

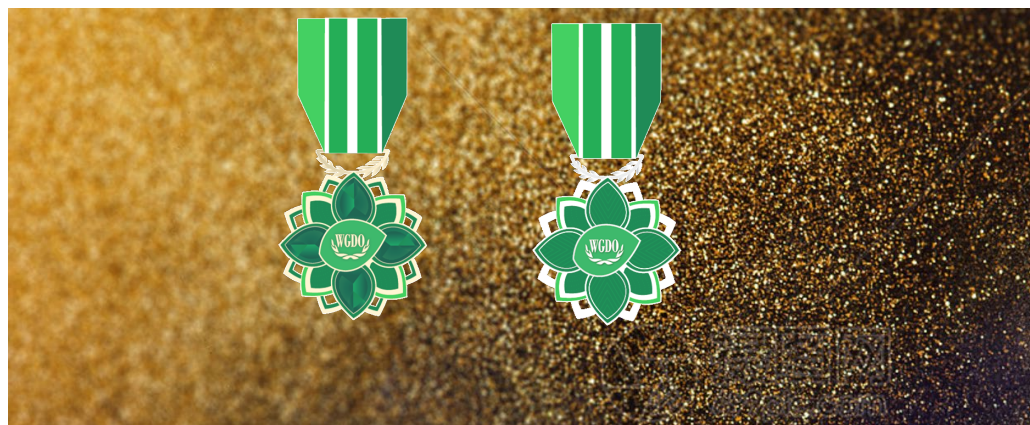

01

**Main Forum**  
(Academics Report,  
Dialogue on Leading industry Organization )

02

**Thematic Speech**  
(KOLs Sharing in Key Areas, Roundtable for Multinational Enterprises)

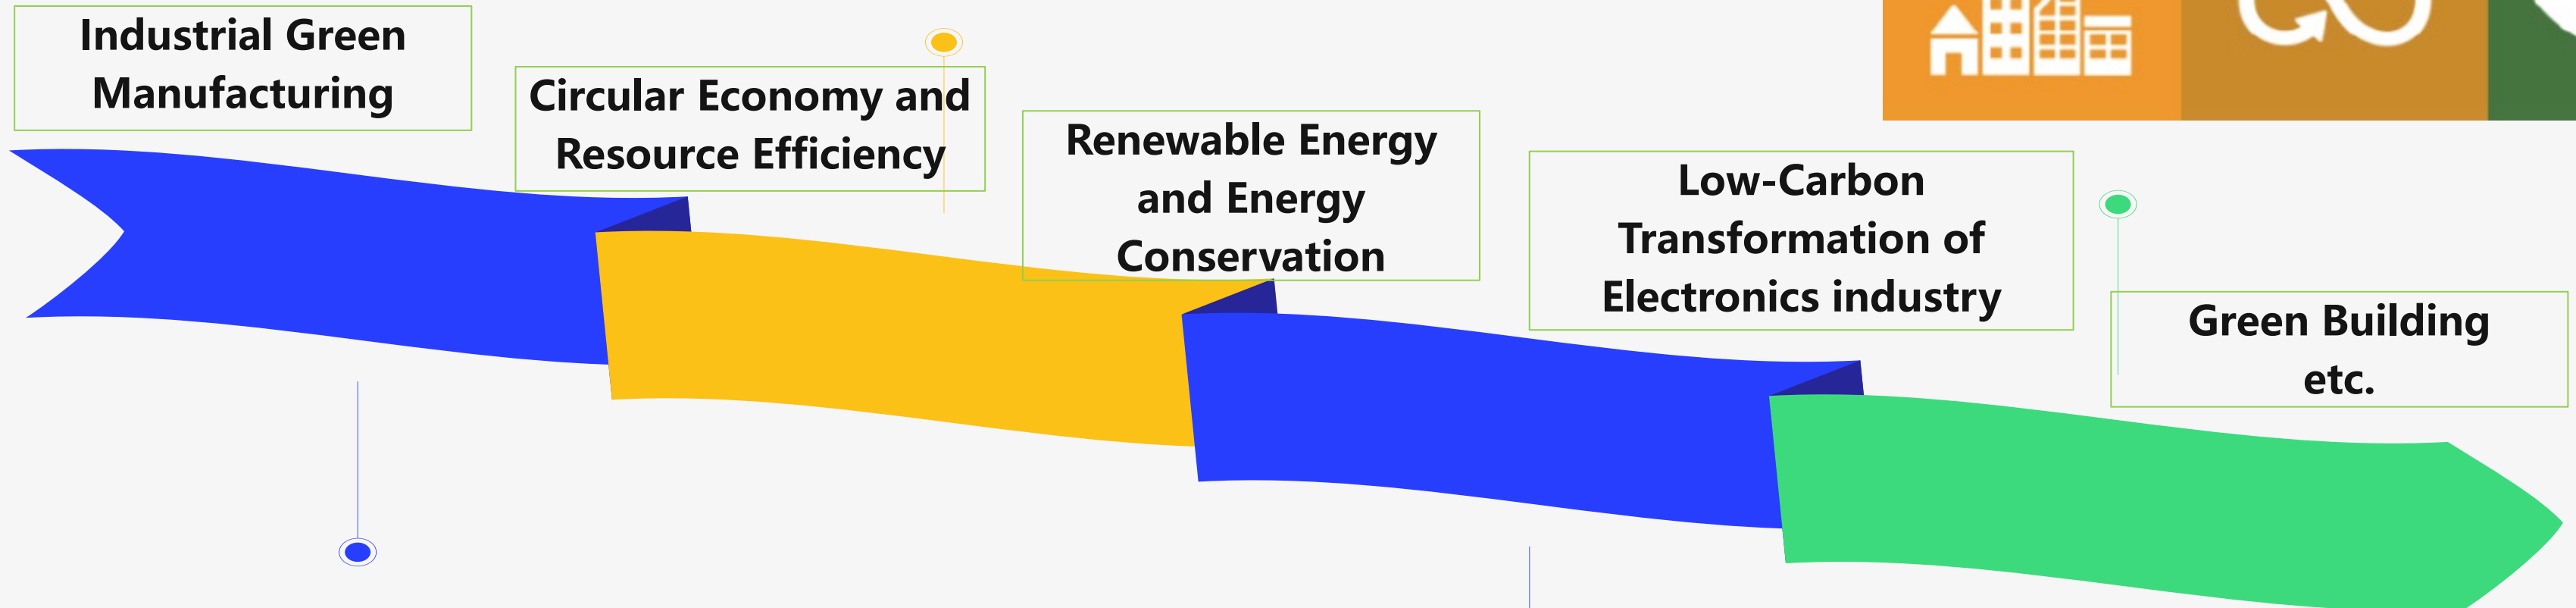

03

**Awards & Recognition**  
(Green Design International Awards, World Green Design Capital,  
Green Design Engineer, Green Design Enterprises)

# Forum Topics

**Green Design International Standards**  
**Green Manufacturing System**

# Five Highlights

Interpretate cutting-edge development trends and market policies in key areas of green transformation in China and Germany (Europe).

Gather leading green manufacturing enterprises from China, Germany and Europe to focus on advanced green technology and products.

Unveil the wind vane of German green financial institutions' investment and financing standards.

Green Design International Award to recognize green design enterprises and build up a responsible international image of enterprises.

Explore the cooperation mechanism between Chinese and German multinational enterprises in key areas.

# Forum Agenda

**Proposed Date:**  
November 15th 2024

**Location:**  
Berlin, Germany

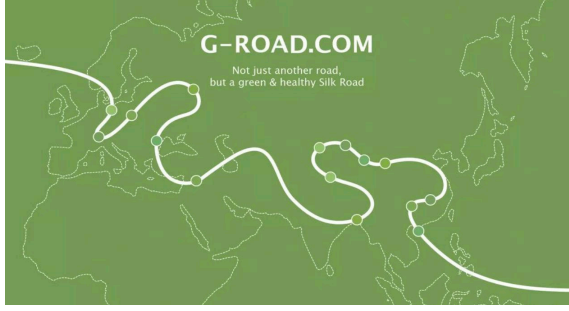

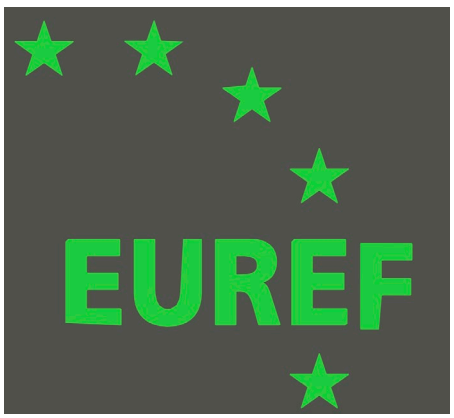

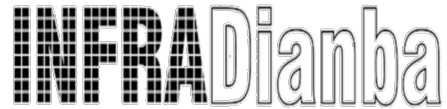

(\*Note: the Final schedule is subject to the agenda published on the scene. It will be updated and please stay tuned.)

Simultaneous Interpretation is available

<b>Host (Proposed) : Prof. Dr. Dieter Flaemig, President of INFRAWIND Eurasian Federation for New Energy and Sustainable Development, Former Staatssekretär of Berlin</b>	
<b>Opening Speech</b>	<ol style="list-style-type: none"> <li>1. Co-Chairman of the World Green Design Forum, Former Chairman of the European Parliament's Delegation on Relations with China</li> <li>2. Plan to invite Representatives from Embassy of the People's Republic of China in Germany and from Federal Government of Germany/Berlin Government</li> </ol>
<b>Academician Report</b>	<p>Academician of China Academy of Engineering          Academician of French National Academy of Technical Sciences          Academician of German National Academy of Science and Engineering</p>
<b>Ceremony ( I )</b>	<ol style="list-style-type: none"> <li>1.Promotion of "Green Design Engineer" Project</li> <li>2.Awarding of the first batch of the "Green Design Engineers"</li> </ol>
<b>Ceremony (II)</b>	"Green Manufacturing" Enterprise Award Commendation and Ceremony of Green Design International Award
<b>Ceremony (III)</b>	Release of Phased Achievements of Green Design International Standards
<b>Keynote Speech</b>	Green Manufacturing, Renewable Energy and Circular Economy, E-Mobility
<b>Roundtable Dialogue</b>	<p>Theme ( I ) Green Design International Standards and Sustainability of Industrial Innovation</p> <p>Theme (II) Market policy and development trend of green design and green manufacturing</p>
<b>END</b>

Green Design Park  
Beijing Investment Group Co., LTD  
Chinese Academy of Environmental  
Planning**

**YOGA BOOK 9i  
Electronic Technology  
Product  
Lenovo (Beijing) Co., Ltd.  
(China)**

More than **50 enterprises** from Germany, China, the United States, Austria, France and Georgia participated in first session, mainly in the fields of industrial parks, circular economy and new energy.

# To Participate As

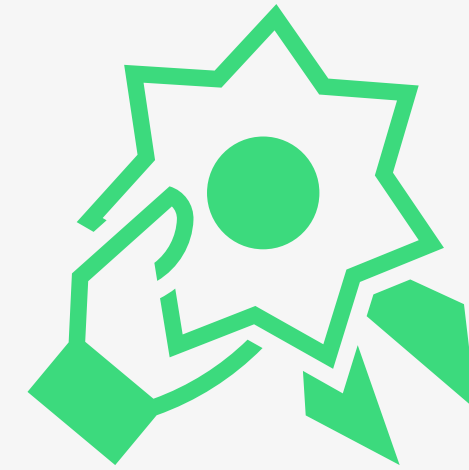

## Professional Audience

Professionals who care about sustainability and green design and green manufacturing, interested in learning about green industry cooperation policies and markets.

## Thematic Speaker

Leading institutions and authoritative experts in the green industry will be invited to share green design and green manufacturing, release the latest green technologies and products, and look for potential cooperation opportunities overseas to achieve high-quality and green going abroad.

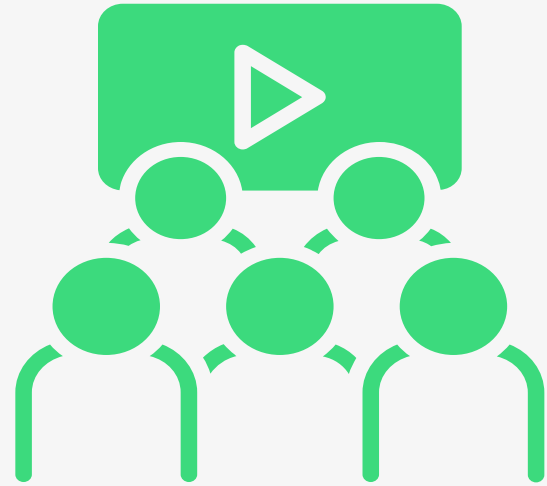

## Prize-Winners of Green Design International Awards

The Green Design International Awards are designed to recognize and inspire leading institutions and authorities in green development around the world.

All parties are welcome to apply.

# Forum Fee

## Public Audience

Registration for this forum is open to the public and that Registration fee is €500 per person, including conference services expenses (VAT excluded)

The venue is limited to 60 people and WGDO members go first.

## Thematic Speaker

Leading institutions and authoritative experts/entrepreneurs in the green industry could deliver a speech about the latest research report or cutting-edge green technologies and products to attract prospective partners and advocate product's leading role in green transition..
